Hi Cathryn,

Do you mind taking a look at the edited pdf before I load it to FDMS?

Thanks!

Erin – thanks for the quick review!

That sounds good Earl. If that's the case, we'll keep those in the document.

Rachel is working with EZtech now to install the software she needs to modify the document.

Thanks everyone,
Cathryn

Everyone,

You can actually leave the NPIC documents, they don't have any PII. You really only have to withhold pages 30-60. It's your call.

Earl

The cover page looks fine to me.

Erin

Thanks Rachel, that looks good to me.

I'm looping in Erin, in case folks are out. If we can have this reviewed this morning we'd appreciate it.

The FRN was posted yesterday and we're holding the comms (OPP Update) until the petition is posted.

Thanks all!
Cathryn

Subject: Seresto Petition: Cover page and redaction for PII

Hi everyone,

We are hoping to publish the petition tomorrow. The petition contains PII, so I am proposing 1) a cover page to appear before the petition and 2) we remove pages 22-56 from the pdf. (I am sending the cover page and the original petition as separate documents as I am waiting for an Acrobat Pro license.)

Could you please review the cover page and let me know your thoughts about removing pages 22-56?

Thanks!

Rachel
